

**Have you witnessed violence  
in a relationship (e.g. between  
a parent and their partner)?**

**Has a partner ever been  
violent towards you?**

If the answer to either of  
these questions is yes, and  
you are **male**, aged **16-30**,  
and **live in the UK**, we  
would like to hear from you  
about your experiences.

As part of an important study at the University of Huddersfield, we are asking young men to participate in **focus groups** to be held in the **Huddersfield area**, discussing their experiences of abuse. The study is part of an ambitious international project aiming to eliminate gender-based violence in our societies.

Your contribution will enable us to better understand and explain the real life experiences of young men who have been exposed to violence either by witnessing it, or as victims themselves. Your story will remain anonymous at all times and we will reimburse you for your travel costs.

If you think you would like to take part, please contact Vikki Hart (None in Three Centre Administrator) on: (tel) **01484 472745** or (email) **noneinthree@hud.ac.uk**
